Miniature Circuit Breaker

New Direction

Miniature Circuit Breaker

DZ30-32

Product Introduction

DZ30-32 (DPN) miniature circuit breaker "phase line + neutral line" circuit breaker is suitable for 50Hz or 60Hz, rated voltage in 230V single-phase residential line, to protect the overload and short circuit of electrical circuit, the breaking capacity of this product High, small size, width 18mm. The zero and live wires are cut off at the same time, which eliminates the personal and fire hazards caused by the live and neutral wires being reversed or neutral wires. It is the most ideal power distribution protection switch in the field of residential buildings.

This product meets the requirements of IEC60947-2 and IEC60898 standards

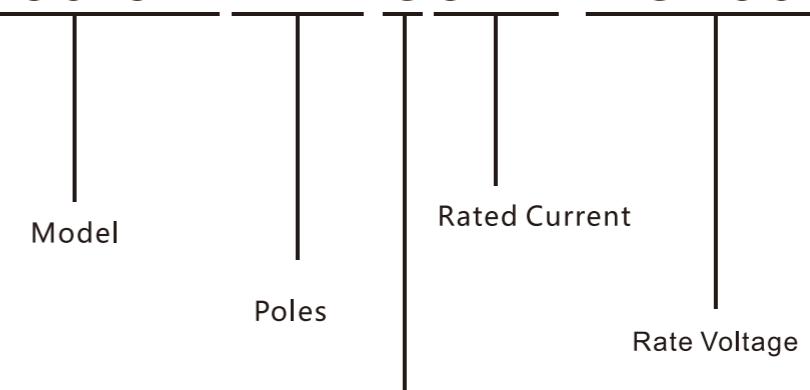

Protection and functions:

- Short circuit protection
- Overload protection (over-current protection)
- Circuit maintenance Isolation function
- Auxiliary control function

Model Meaning

DZ30-32-1PN-C32A-AC230V

⚡ Miniature Circuit Breaker

DZ30-32

Technical Parameters

Model	DZ30-32
Electrical characteristics	
Poles	1P+N (N pole can be opened or closed)
Rated current I_e (A)	6A, 10A, 16A, 20A, 25A, 32A
Rated voltage U_e (V)	AC230V, AC110V
Rated insulation voltage U_i (V)	500
Rated short-circuit breaking capacity I_{cn} (kA)	4
Rated impulse withstand voltage U_{imp} $U_{imp}(1.2/50)$ (kV)	4
Dielectric test voltage	2kV (50/60Hz, 1 min)
Trip type	Thermal magnetic Trip
Trip curve	C($5I_n \sim 10I_n$), D($10I_n \sim 14I_n$)
Accessories	Have
Mechanical characteristics	
Electrical life	10000
Mechanical life	20000
Benchmark ambient temperature	30°C
Pollution level	2
Normal operating conditions and installation characteristics	
Terminals	U-shaped terminal block, screw crimp
Maximum wiring capacity (mm^2)	16
Maximum ultimate torque (Nm)	2
Installation category	II, III
Wiring	Top in bottom out, bottom in top out
Installation method	Use TH35-7.5 steel or aluminum rail installation

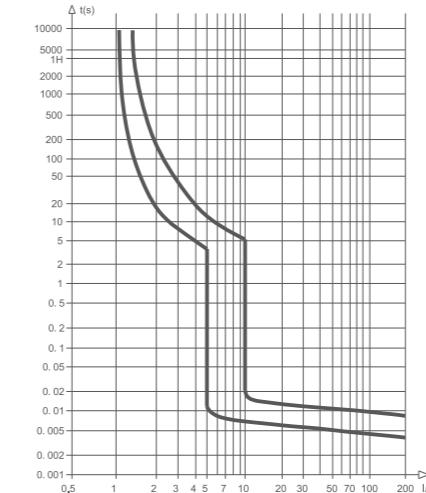

⚡ Miniature Circuit Breaker

DZ30-32

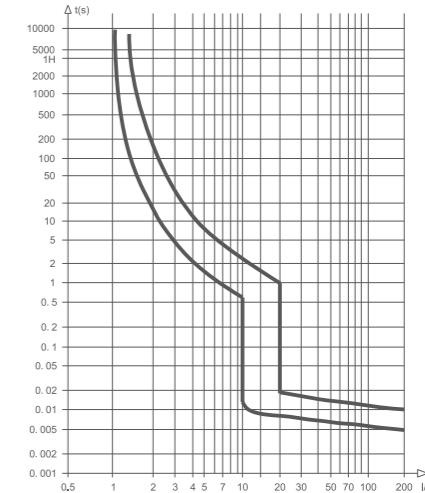

Normal Working Conditions

- Ambient air temperature: -30°C ~ +70°C
- The relative humidity of the air is not more than 95%
- The inclination to the vertical plane does not exceed 5°
- A place without significant shaking and shock vibration
- In a non-explosive medium, and there is no gas and dust (including conductive dust) in the medium that is sufficient to corrode metals and damage insulation

Tripping Characteristic Curve

Order Introduction

- The user should indicate the product model, tripping type, rated current, number of poles, accessories and quantity of the circuit breaker when ordering.
- For example: DZ47-63D circuit breaker 2P C63A 200 pieces.
- If the user has special requirements, such as customized printing, it can be negotiated separately.

Remark:

- "Customized products" (gray marked), cannot be ordered directly, you need to determine the quantity, price and order cycle before ordering,
- Customized products does not support returns and exchanges.
