

PRODUCT INTRODUCTION

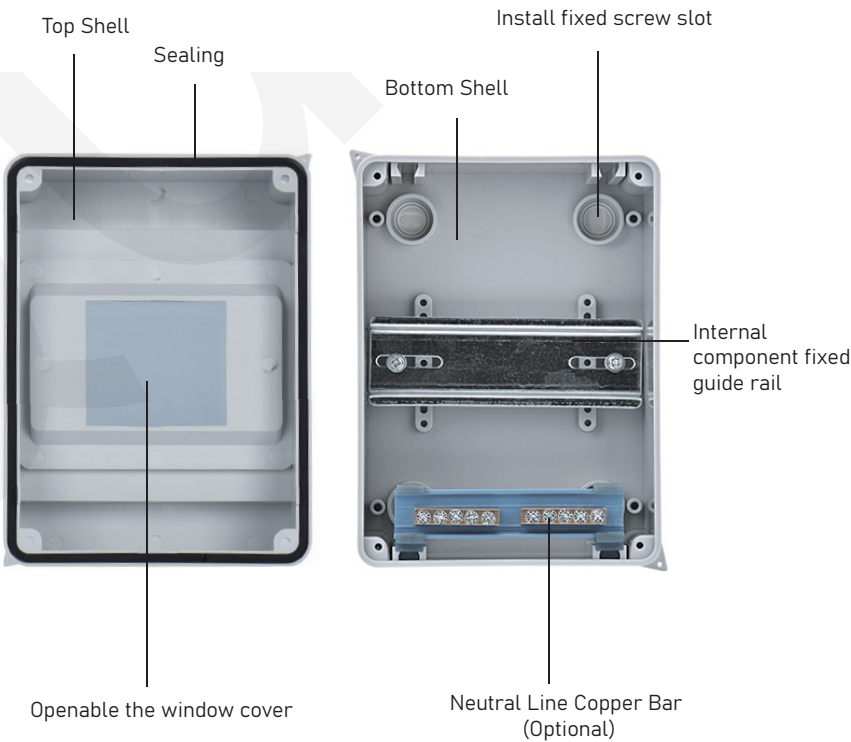

NQHTBOX waterproof box (waterproof distribution box) series, uses ABS plastic bottom shell plus PC transparent plastic panel. The product has excellent IP65 waterproof and dustproof capacity for outdoor use. The overall flame retardant of the product can conductors, switches, contactors, indicator lights. And can directly operate internal component opening and closing without opening the bottom box. You can also add copper volumes to facilitate the connection of zero fire lines.

PARAMETERS

Specifications			
Specification	2Way	3Way	5Way
Size (WxLxH)	55x95x120mm	75x95x155mm	120x95x160mm
Protection level	IP65	IP65	IP65
Installation rail	Build-in	Build-in	Build-in
Equipable accessories	/	/	Copper Barx1
Tolerance voltage	AC690V/DC1200V	AC690V/DC1200V	AC690V/DC1200V
Specifications			
Specification	8Way	12Way	15Way
Size (WxLxH)	200x110x200mm	255x110x200mm	310x110x200mm
Protection level	IP65	IP65	IP65
Installation rail	Build-in	Build-in	Build-in
Equipable accessories	Copper Barx1	Copper Barx1	Copper Barx1
Tolerance voltage	AC690V/DC1200V	AC690V/DC1200V	AC690V/DC1200V

Specifications			
Specification	18Way	24Way	
Size (WxLxH)	365x110x200mm	275x110x335mm	
Protection level	IP65	IP65	
Installation rail	Build-in	Build-in	
Equipable accessories	Copper Barx1	Copper Barx2	
Tolerance voltage	AC690V/DC1200V	AC690V/DC1200V
